Verification Opinion

Submitted to: Vontier Corporation

Verification Body: TÜV SÜD America, Inc.

Lead Verifier: Pilar Gutierrez (pilar.gutierrez@tuvsud.com)

Submitted: May 14, 2025

TÜV SÜD America, Inc. (TÜV SÜD) conducted the verification of Vontier's 2024 GHG Inventory according to the requirements found in ISO 14064-3:2019, 14065:2020, & 17029:2019. The objective of this verification was to ensure that the GHG statement is materially correct and conforms to all relevant criteria. The GHG statement is the responsibility of Vontier. A summary of the GHG statement is as follows:

- GHG-related activity: Vontier's Global Operations
- GHG statement: Calendar Year (CY) 2024
- Criteria:
 - World Resources Institute and World Business Council for Sustainable Development's Greenhouse Gas Protocol Corporate Accounting and Reporting Standard (GHG Protocol)
 - CDP Climate Change 2022 Reporting Guidance
 - GHG Protocol Scope 2 Guidance
 - GHG Protocol Scope 3 Guidance
 - ISO 14064-3:2019 "Greenhouse gases – Part 3: Specification with guidance for the validation and verification of greenhouse gas statements"

The data and information supporting the GHG statement were historical in nature.

Based on the examination of the evidence, nothing comes to TÜV SÜD's attention which gives cause to believe that the GHG statement is not a fair representation of GHG data and information.

TÜV SÜD has verified Vontier's inventory to a limited level of assurance, and confirms that there is no evidence that the GHG statement:

- Is not materially correct and
- Has not been prepared in accordance with all applicable criteria.

In compliance with the requirements of ISO 14065:2020, the client may reproduce and distribute TÜV SÜD's verification opinion without TÜV SÜD's prior authorization, as long as the verification opinion is reproduced in its entirety, including the date.
