

Vontier Earns Gold Rating from EcoVadis for Strong Sustainability Performance

2026-04-01

The award places the company in the top 5% of businesses assessed

RALEIGH, N.C.--(BUSINESS WIRE)-- Vontier Corporation (NYSE: VNT), a leading global provider of critical technologies and solutions to connect, manage and scale the mobility ecosystem, received a gold rating by EcoVadis, placing the company in the top 5% of more than 150,000 businesses assessed for sustainability performance.

The gold rating reflects Vontier's continued year-over-year improvements in sustainable business practices and responsible corporate governance across its global operations.

"I'm proud of our team as we continue to build a sustainable future while powering the way the world moves," said Katie Rowen, Chief Operations and Transformation Officer at Vontier. "This year's EcoVadis rating is reflective of our resolve to deliver long-term value for our customers, stakeholders and the communities we serve."

EcoVadis assesses sustainability performance across four categories – Environment, Labor & Human Rights, Ethics, and Sustainable Procurement – using a methodology based on international sustainability standards. Vontier's Gold rating reflects its performance across these dimensions as well as the company's transparency and governance practices.

This adds to Vontier's growing list of recent sustainability accolades, including Newsweek's **Most Responsible** and **Greenest Companies**, as well as recognition from **CDP for climate change and water security**.
